

Our ref: 19/578640

Mr Fil Cerone
Director of Sustainability, Environment & Planning
City & Southwest
Sydney Metro
PO Box 588
North Ryde Business Centre, NSW 1670

Dear Mr Cerone

Subject: Sydney Metro – Sydenham to Bankstown Upgrade (SSI 8256) – Approval of the Construction Environmental Management Plan and Sub-Plans – Early Works

I refer to your submissions requesting the Planning Secretary's approval of the Construction Environmental Management Plan (CEMP) and supporting sub-plans under conditions C1 and C3. I also note inclusion of the Construction Monitoring Programmes required under condition C8 within the associated Soil and Water Management Plan and Noise and Vibration Management Plan. I acknowledge your response to the Department's review comments and requests for additional information on these plans and the Sydenham to Bankstown Upgrade Staging Report Revision 2.

I note that the CEMP and sub-plans:

- have been prepared in consultation with the relevant government agencies
- have been reviewed by Sydney Metro and no issues have been raised
- have been endorsed by the Environmental Representative
- contain the information required by the conditions of approval.

As delegate of the Planning Secretary, I approve the following documents pursuant to conditions C7:

Document	Revision and date
Construction Environmental Management Plan – Early Works	Revision 5, dated 1 July 2019
Construction Noise and Vibration Management Plan – Early Works	Revision 4, dated 26 July 2019
Construction Soil and Water Management Plan – Early Works	Revision 4, dated 26 July 2019
Construction Heritage Management Plan – Early Works	Revision 4, dated 23 July 2019

Any updates to the CEMP and/or sub-plans must be assessed by the Environmental Representative in accordance with condition A26. If the Environmental Representative determines that the updated CEMP and/or sub-plans cannot be approved under condition A26, then the updated CEMP and/or sub-plans must be submitted for the approval of the Planning Secretary prior to commencement of activities associated with the update. If the plan/s can be approved under condition A26, please provide a copy to the Planning Secretary for information.

You are reminded that if there is any inconsistency between the approved plans and the conditions of the approval, then the requirements of the conditions of approval will prevail.

Please ensure you make the CEMP and sub-plans publicly available on the project website.

If you require clarification regarding this matter please contact Katrina Mattingley, Senior Environmental Assessment Officer, Infrastructure Management via email at Katrina.Mattingley@planning.nsw.gov.au.

Yours sincerely

 20/7/19

Erica van den Honert
Director – Infrastructure Management
As delegate of the Planning Secretary
