

ENDORSEMENT CITY & SOUTHWEST ACOUSTIC ADVISOR

Review of	Sydenham Station & Junction Construction Noise and Vibration Management Plan	Document reference:	SMCSWSSJ-JHL-WSS- EM-PLN-000029
Prepared by:	Larry Clark, Alternate Acoustics Advisor		Revision 08, 2/09/2020
Date of issue:	30 October 2020		

As approved Alternate Acoustics Advisor for the Sydney Metro City & Southwest project, I have reviewed and provided comment on the minor amendments made to the Construction Noise and Vibration Management Plan (CNVMP) for the Sydenham Station & Junction works, as required under A27 (g) iv. of the project approval conditions.

I am satisfied that the minor amendments made are necessary. Some minor typographical corrections, which do not have a material effect on the document or its application, will be made in the next revision. On this basis I approve Revision 08.

Larry Clark, City & Southwest Alternate Acoustics Advisor
