Dear Carolyn

RE: Endorsement of Sydenham Metro Upgrade (SMu) Construction Environmental Management Plan (CEMP) Rev14 – Sydney Metro City & Southwest

Thank you for providing the following document for Environmental Representative (ER) review and endorsement as required by Conditions of Approval A24 (d) and (j) of the Sydney Metro City & Southwest project (SSI – 15_7400 9 January 2017).

- Sydney Metro City & Southwest Construction Environmental Management Plan (SMCSWSSJ-JHL-WSS-EM-PLN-000028 Revision 14 dated 15th March 2021) (the Plan).

The Plan was originally developed to address Condition C2 of the project approval. Rev 14 amends the Plan by:

- a. Removing reference to a Construction Air Quality Management Plan
- b. Updating dates in relation to delivery phases in the Program
- c. Updating to include reference to groundwater management activities related to the 132kV underbore works during 2020
- d. Removal of a target related to quarterly surveys in Table 9, as agreed with Sydney Metro
- e. Updates to risk assessment rankings to reflect changes to the LOR EMS when integrated to an HSEMS

The above-listed amendments are considered to be 'minor' according to Condition of Approval A24 (j). The amendments do not trigger any additional CoAs or REMMs and are consistent with the planning approval. No additional significant risks have been identified as a result of the changes.

As an approved ER for the Sydney Metro City & Southwest project, I have reviewed and provided comment on this document and accordingly approve the amendment of the Plan for implementation.

Yours sincerely

Jo Heltborg
Environmental Representative – Sydney Metro – City and South West
