Dear Carolyn

RE: Endorsement of Sydenham Metro Upgrade (SMu) Construction Soil and Water Management Plan (CSWMP) Rev13 – Sydney Metro City & Southwest

Thank you for providing the following document for Environmental Representative (ER) review and endorsement as required by Conditions of Approval A24 (d) and (j) of the Sydney Metro City & Southwest project (SSI – 15_7400, dated 9 January 2017).

- Sydney Metro City & Southwest Construction Soil and Water Management Plan (SMCSWSSJ-JHL-WSS-EM-PLN-000033 Revision 13, dated 19th March 2021) (the Plan).

The Plan was developed to address Condition C3 (d) of the project approval. Rev 13 amends the Plan by:

- a) Inclusion of reference to a groundwater assessment report prepared for the site (Supplement to the Groundwater Assessment Report–Sydenham Station and Junction Upgrade, 11 Sydenham Rd, Marrickville, NSW)
- b) Updating Section 4.3.1.5 Monitoring to include a description of groundwater monitoring conducted at the 132kV underbore launch pits at 11 Sydenham Road
- c) Updating to include a new procedure developed for the use of non-automated silt busters in the treatment of onsite water for turbidity and discharge offsite
- d) The inclusion of a sustainability appraisal process for the management and/or remediation of contamination in Section 6.4.1
- e) Clarification around the spoil reuse management process, particularly in relation to asbestos in Section 6.4.2

The above-listed amendments are considered to be ‘minor’ according to Condition of Approval A24 (j). The amendments do not trigger any additional CoAs or REMMs and are consistent with the planning approval. No additional significant risks have been identified as a result of the changes.

As an approved ER for the Sydney Metro City & Southwest project, I have reviewed and provided comment on this document and accordingly approve the amendment of the Plan for implementation.

Yours sincerely

Jo Heltborg
Environmental Representative – Sydney Metro – City and South West
