

APPROVAL
CITY & SOUTHWEST ACOUSTICS ADVISOR

Review of	Construction Noise and Vibration Management Plan. Sydenham Station Junction	Document reference:	Construction Noise and Vibration Management Plan for Station Box Construction. Sydenham Station Junction Prepared by Laint O'Rourke and John Holland
Prepared by:	Carl Fokkema Alternate Acoustics Advisor		Holland
Date of issue:	20 April 2022		<i>Report Number SMCSWSSJ-JHL-WSS-EM-PLN-000029 Revision 10</i>

As approved Alternate Acoustics Advisor for the Sydney Metro City & Southwest project, I have reviewed and provided comment on the Construction Noise and Vibration Management Plan (CNVMP) for the Sydenham Station Junction (SSJ), as required under A27 (d) and (g) (iv) of the project approval conditions (SSI 15-7400).

I reviewed and commented on previous revisions of the CNVMP. This revision 10 includes minor amendments that required updating or were of an administrative or minor nature and are consistent with the terms of approval and the document approved by the Secretary.

I am satisfied that such amendments are necessary, approve revision 10 of the CNVMP (dated 11 March 2022), and consider that the document is appropriate for submission to the Secretary for information.

Carl Fokkema, City & Southwest Alternate Acoustics Advisor
